The following package hard copy with support materials arrived to all federal congress (both senators and house) , supreme court judges, governors, AG, judges of U.S. Court of Appeals , DNI, NSA, Army, and cabinet Secretary, director, all major media, etc.

Dear All

I filed Lawsuit at Federal Court Ohio Southern District Columbus Branch on 12/19 to urge Federal agency and congress give investigation result for presidential candidates including investigation on Trump NJ Rich Chinese EB5 urgent approved due to Hurricane Sandy with support of Obama, Accessory to murder investigation on Hillary Clinton and State Department, investigation on Trump daughter Ivaka best friend Wendi Deng, ex-wife of Murdoch, a top Chinese Spy and hate crime of Trump against Muslim. Summons has been mailed by court to all defendants.

Defendants including president Obama, vice president, FBI, CIA, Justice department, homeland security, State Department, SEC, Paul Ryan , Mitch McConnell , Reince Priebus, Mike Pence etc. Please see attached complain draft. (Pictures and related material https://www.facebook.com/HongWang-1744893469065358/?ref=aymt_homepage_panel)

USA need a true leader whom be approved could lead USA to a bright future ! A leader that believe in and loyal to God! I believe Ohio Governor John Kasich is THE person whom is picked by God!

Here are part of Ohio Governor's accomplishments:

In 2011, 1st Year of Governor John R. Kasich took office, Ohio faced historic challenges. Over 400,000 jobs were lost in the previous four years, unemployment peaked and remained at 10.6 percent between August 2009 and February 2010, and the state faced an \$8 billion budget shortfall. You could see Ohio Governor Accomplishment in 2011 for Job creation and budget balance etc.: Closing an \$8 billion shortfall without raising taxes while preserving the \$400 million annual income tax cut and cutting taxes \$300 million by eliminating the Estate Tax. Till 2013, after a Low of 89 Cents when Governor John Kasich took office in 2011, Ohio Rainy Day Fund Hits All-Time High -- \$1.5 billion.

I attached all 6 years Ohio Governor Accomplishments for you to review.

Hi Chris:

Kushner and Kabr Group are the developers. The address of the project is 65 Bay Street Jersey City, NJ 07302. Project is 50 story luxury apartment tower. 100 526 have been filed. About 17 are pending. The vast majority of the others were approved in 2015. The RC is US Immigration Fun NJ. ID ID1236250925. RC approved 05/29/2013 (I believe at CSC). As an aside, the attorney is Hsien Hao Chang, RC principal is Nicholas Mastrioni. Mastrioni owns several other RCs as well.

I read the email from the reporter. I believe he is trying to understand how this project qualified for the TEA – what geographic areas were combined to qualify. Each 526 should contain a TEA letter that would offer a detailed description. The note in iClaims for the 924 indicates the following geo information: The territory comprised of Bergen County Essex County Hudson County Middlesex County Monmouth County Passaic County Union County and Morris County in the State of New Jersey.

The 2014 is on the ECN (attached). As to TEA, the EDD states: ***Targeted Employment Area (TEA) Designation***

☒ Yes ☐ No Application includes TEA letter from the State of New Jersey Date of letter: 12/28/2012

There will be more detail in the letter. I would ask someone to pull the file and review the TEA letter, or have our PA contact suggest to the reporter that he file a FOIA request for the

TEA letter.

I can't find anything for 88 Kushner-KABR

Please check this response for TEA designation (and let me know if there is an EB-5 entity by that name...)

The statute at INA 203(b)(5) governs the definition of "TEA" and the allocation of immigrant visas for investors who invest in a TEA. USCIS has no authority to remove a statutory requirement. Consistent with the regulations, USCIS defers to state determinations of the appropriate boundaries of a geographic or political subdivision that constitutes the targeted employment area. However, for all TEA designations, USCIS must still ensure compliance with the statutory requirement that the proposed area designated by the state in fact has an unemployment rate of at least 150 percent of the national average rate. For this purpose, USCIS will review state determinations of the unemployment rate and, in doing so, USCIS can assess the method or methods by which the state authority obtained the unemployment statistics. Acceptable data sources for purposes of calculating unemployment include U.S. Census Bureau data (including data from the American Community Survey) and data from the Bureau of Labor Statistics (including data from the Local Area Unemployment Statistics).

We suggest pointing the reporter to the New Jersey Department of Labor and Workforce Development, Office of Labor Planning and Analysis for the list of state-designated TEAs.

Good Afternoon Chris:

A reporter from VICE asked if we might be able to walk him through the "...TEA determination for 88 Kushner-KABR in Jersey City?" That is, I had provided him the description of the process from the 2013 policy memorandum, but New Jersey's Department of Labor and Workforce Development referred him to us as he is apparently looking to learn about our assessment of the state's determination.

Perhaps there is some general description of our process that we could provide to add some context (or a simple factual response that does not require FOIA)? We do not currently have standard language for TEA assessments in our public affairs guidance document and would appreciate anything you may be able to provide over the next day.

From what I see here, it seems as if USCIS is responsible for reviewing and assessing the state's determination, correct? If that's right, is it possible for you all to walk me through the TEA determination for 88 Kushner-KABR in Jersey City?

I will also check back with New Jersey, but they essentially told me the same thing that's in the regulation (that USCIS has final approval over a TEA determination).

Thanks for looking into this.

There is the expedited FOIA process (page 5: <https://www.uscis.gov/sites/default/files/files/form/g-639instr.pdf>), but that as you know can still be lengthy; otherwise, there is no other method to expedite.

On the TEA question, from our website, following is the pertinent section of our 2013 Policy Memo about which I was thinking

(<https://www.uscis.gov/sites/default/files/USCIS/Laws/Memoranda/2013/May/EB-5%20Adjudications%20PM%20%28Approved%20as%20final%205-30-13%29.pdf>) :

A State's Designation of a Targeted Employment Area

The regulation provides that a state government may designate a geographic or political subdivision within its boundaries as a targeted employment area based on high unemployment. Before the state may make such a designation, an official of the state must notify USCIS of the agency, board, or other appropriate governmental body of the state that will be delegated the authority to certify that the geographic or political subdivision is a high unemployment area. The state may then send a letter from the authorized body of the state certifying that the geographic or political subdivision of the metropolitan statistical area or of the city or town with a population of 20,000 or more in which the enterprise is principally doing business has been designated a high unemployment area. 8 C.F.R. § 204.6(i).

Consistent with the regulations, USCIS defers to state determinations of the appropriate boundaries of a geographic or political subdivision that constitutes the targeted employment area. However, for all TEA designations, USCIS must still ensure compliance with the statutory requirement that the proposed area designated by the state in fact has an unemployment rate of at least 150 percent of the national average rate. For this purpose, USCIS will review state determinations of the unemployment rate and, in doing so, USCIS can assess the method or methods by which the state authority obtained the unemployment statistics. Acceptable data sources for purposes of calculating unemployment include U.S. Census Bureau data (including data from the American Community Survey) and data from the Bureau of Labor Statistics (including data from the Local Area Unemployment Statistics).

Does that help or have I misunderstood the question (of course entirely possible)? Please let me know and I'll resolve that, if so.

Thank you, Joe. I can submit the FOIA, but is there any way to expedite the process and pass along the information in the next few days? I only ask because I've had DHS FOIAs drag on for quite some time in the past (I received a call from ICE today about a 2013 request, oddly enough).

As for the TEA, the NJ Department of Labor and Workforce Development told me this morning that their designation is only a recommendation, and that USCIS makes the final decision. Are you certain the state makes the designation for the project? If so, perhaps you can point me to a resource on the USCIS website explaining that.

Many thanks,

With respect to the Targeted Employment Area (TEA), have you contacted the state? I ask, because each state has the authority to set the geographic boundaries of its TEA designation and a state office should be able to assist. A quick search seems to show that NJ Department of Labor and Workforce Development is the lead: <https://lwd.state.nj.us/labor/lpa/employ/uirate/targetarea.pdf>.

Subject: RESPONSE: General Inquiry re: I-924 -- Geographical area

Dear Joshua Kushner,

USCIS is unable to comment with stakeholders wishing to establish a Regional Center. However, you may find the information you need within the [May 30, 2013, USCIS EB-5 Policy Memorandum](#).

Lastly, you may also find valuable information within the instructions for EB-5 related forms, [Form I-526](#) and [Form I-924](#).

Sincerely,

Subject: General Inquiry re: I-924 -- Geographical area

Hello. I have a general inquiry regarding an Initial Application for Designation as a Regional Center. For Section III(3), may the geographical area encompass the entire United States? I know most Regional Centers focus on a particular county, or sometimes an entire state, but our client's project intends to create jobs across multiple state lines... would this qualify?
